Ibrahim Qronfli

STRENGTHS

Computer Science / Engineering is my passion.
I love all aspects of programming, from the highest to the lowest.
From Developing good, scalable frontEnd applications, to device drivers.
I'm passionate about every form of programming, those that highly involve Maths, and those that involve engineering aspects and science.
In free time, currently I work on compilers &| interpreters.

Check my Github to get an idea of what type of programmer I am. Thanks for your time.
